SUMMARY

Highly motivated front end web developer. Dedicated to creating intuitive and sleek web experiences. Self taught and self driven, passionate about learning. Currently transitioning from custom poker table craftsman, looking for a front end developer position.

EXPERIENCE

Budget App
- Utilized Bootstrap to create an easy to use, responsive interface.
- Produced CRUD functionality through manipulation of the DOM with JavaScript.

OK In My Book Club- Survey Form
- Cultivated Book Club Survey Form's clean design with HTML5 and CSS3.
- Implemented validations with JavaScript to ensure all mandatory input fields are correctly filled.

Tetris App
- Created Tetris App using HTML canvas to illustrate game board.
- Employed JavaScript to animate game, enable keyboard controls on large screens, and enable touch screen controls on small screens.
- Added local storage utilization to keep track of high score.
